## **HIGH PRESSURE DECORATIVE LAMINATES OPEN DOOR TO UNLIMITED DESIGN POSSIBILITIES**

VT Industries uses high pressure decorative laminate from leading manufacturers.

VT high pressure decorative laminate (HPDL) doors are the perfect complement to any interior design. Combined with the durability and low maintenance of decorative laminates, VT's superior construction and performance offers an unbeatable combination.

Consider enhanced woodgrain patterns, solid colors, three-dimensional textures, or inlay patterns. Now, with more design options, VT HPDL doors offer a wide array of features while maintaining the high quality our customers have come to expect ... including the preferred "edge before face" construction to assure maximum durability.

### **VT high pressure decorative laminate doors:**

- Are available in many design options, including solid colors, woodgrains, patterns and specialty designs from any specified laminate manufacturer.
- Are available with custom laminates that can be produced from graphics and other images.
- Provide uniformity in appearance.
- Require very low maintenance; easy to clean.
- Are very durable.
- Provide the unique look of exotic wood species without depleting valuable natural resources.
- Do not facilitate the growth of bacteria, microbes or fungi.
