

MGM Grand at Foxwoods – Resort & Casino

Project Profile:

MGM Grand at Foxwoods, located in Ledyard, Connecticut, combines the excitement and glamour of a world-renowned resort with the scenic beauty of rural Connecticut. The facility features all the high-end amenities you'd expect, including 825 ultra-modern guest rooms complete with imported linens and feather-topped mattresses.

Building Challenge:

MGM Grand at Foxwoods warranted doors that would contribute to the luxurious vibe, while still providing the durability needed in the high-traffic guest rooms, meeting rooms, and office areas.

The upscale architectural aesthetic called for distinctive, high-design doors.

The high-traffic nature of the application called for doors that could withstand abuse.

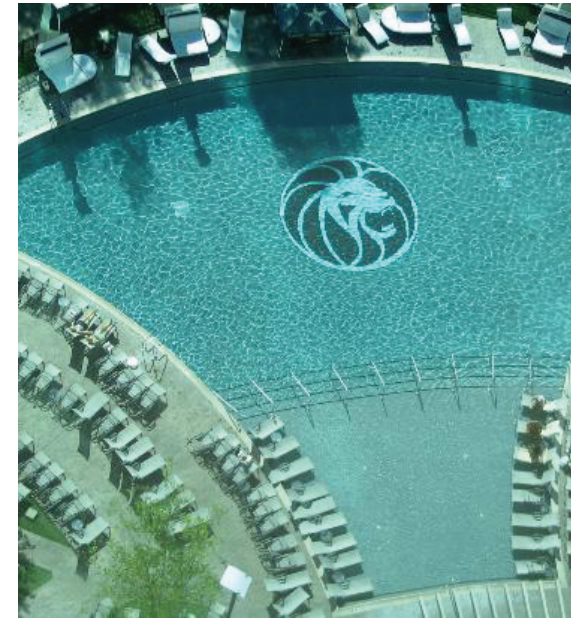

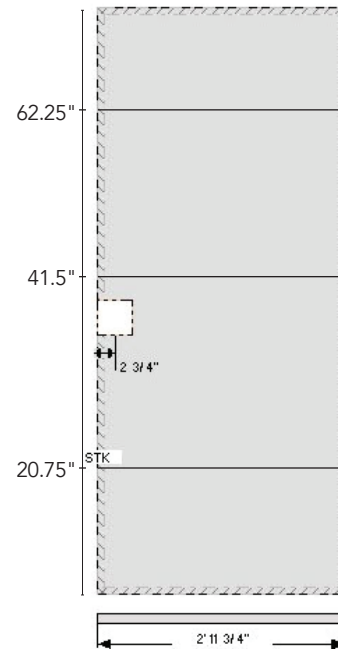

Doors with extended fire ratings were required to meet code inside the building.

VT's Contribution:

VT Industries manufactured over 4,600 flush wood veneer doors with reveals, utilizing quartered white maple veneers paired with a custom stain. VT also manufactured several oversized doors 4'8" x 8' that were hung on-site with sliding door hardware.

We make beautiful, high-performing doors.

Doors with an exciting vibe and luxurious aesthetic also stand up to high traffic.
