HPL (High Pressure Laminated Panels) Disclaimer

It is important that as a buyer and/or an end fabricator, you are informed of the potential liability possibly affecting the performance or appearance which could be the result of a non-standard panel and/or panel component lay-up. BEFORE RAW MATERIALS ARE ORDERED, the buyer and/or end fabricator customer will be required to sign a waiver (below) stating that they understand that VT Industries, Inc. will not accept any liabilities in regards to the lay-up indicated below.

PANEL LAY-UP

Please note that by accepting this quote from VT Industries, Inc. that as a buyer or end fabricator you understand the potential liability possibly affecting the performance or appearance of the quoted products:

- ✓ VT INDUSTRIES, INC. WILL NOT ASSUME ANY LIABILITY ON PANELS AND/OR PANEL COMPONENTS WHICH ARE LAID-UP WITH A GLOSS FINISH VG HPL. THIS IS DUE TO THE POSSIBILITY OF SUBSTRATE OR ADHESIVE TELEGRAPHING, WHICH CAN DISTORT THE SHEEN OR GLOSS OF THE FINISH.
- ✓ VT INDUSTRIES, INC. WILL NOT ASSUME ANY LIABILITY ON PANELS AND/OR PANEL COMPONENTS ORDERED WITH A RAW SIDE. RAW SIDED PANELS ARE UNBALANCED ALLOWING MOISTURE TO PENETRATE THE RAW SIDE WHICH CAN CAUSE PANELS TO WARP; THIS IS ESPECIALLY TRUE IN PLYWOOD CORE LAY-UP.
- ✓ VT INDUSTRIES, INC. WILL NOT ASSUME ANY LIABILITY ON PLYWOOD PANEL COMPONENTS WHICH ARE LAID UP USING POST-FORM, VERTICAL GRADE LAMINTE, TO INCLUDE CABINET LINER GRADE HPL, DUE TO THE POSSIBILITY OF TELEGRAPHING.

I (WE) have read the above information and understand that VT Industries, Inc. will not be held responsible for any liability of panel and or panel components performance or appearance caused by non-standard panel lay-up as described above for current or future orders. I (WE) have also advised any necessary customers, buyers, fabricators, or end users of the quoted products of the above information.
