

DETERMINING TOP OR BOTTOM RAIL BLOCKING DIMENSIONS

Blocking for the top or bottom rails from VT will result in the specified dimension. For example, if you have a closer requiring a 5" top rail from VT, the door will be constructed with 5" blocking.

- Maximum rail blocking height on Non-rated and 20-minute doors is 14 inches for each rail
- Maximum rail blocking height on Fire Composite and Agrifiber core doors is 10 inches for each rail

If you have questions regarding top and bottom rail dimensions, please contact your Customer Service Center Representative or your area sales representative.
