

DOOR HANDING

Swing Doors:

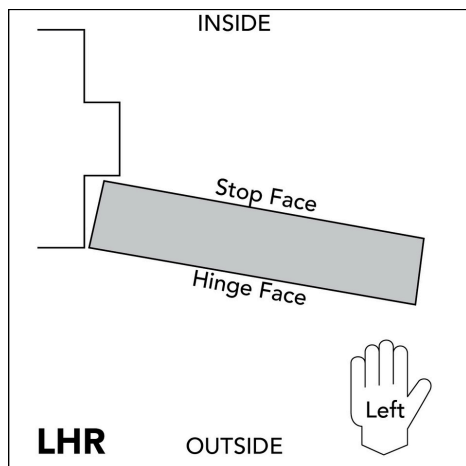

- The hand of the doors is always determined from the outside
- The outside of an interior door is the key side or means of egress (flow of traffic)
- The outside of a closet door is the side opposite the closet

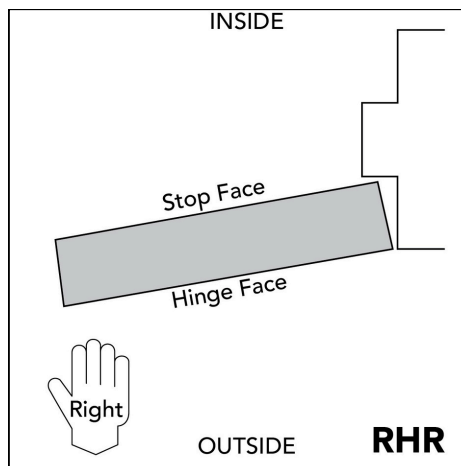

Left Hand:
When the hinges are on the left (concealed from view) and the door swings away from you (into the room/building), the door is Left Hand (LH).

Right Hand:
When the hinges are on the right (concealed from view) and the door swings away from you (into the room/building), the door is Right Hand (RH).

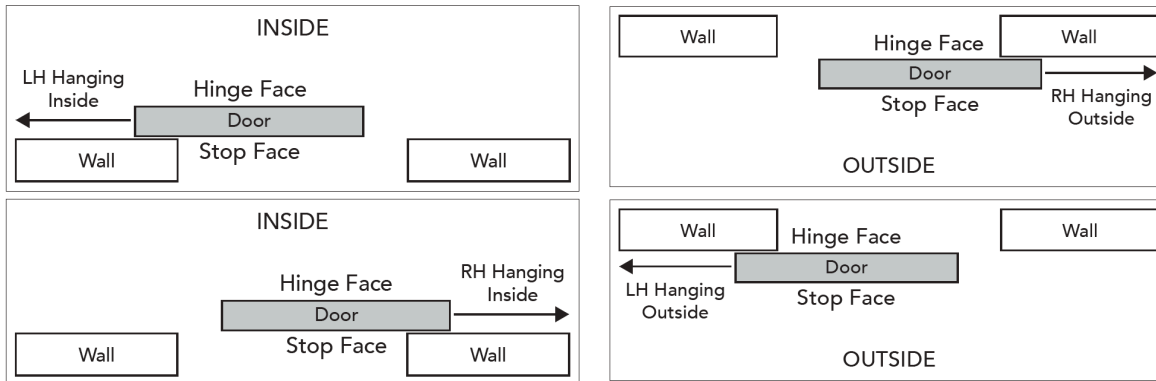

Left Hand Reverse:
When the hinges are on the left (visible) and the door swings toward you, the door is Left Hand Reverse (LHR).

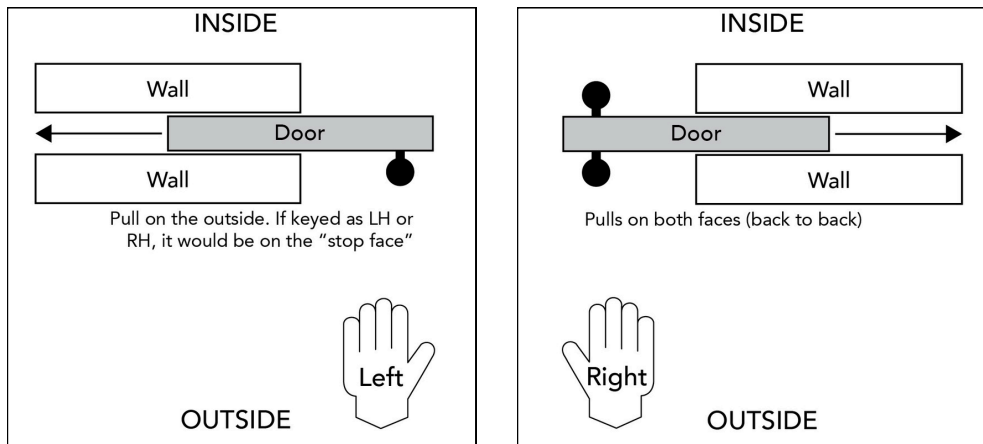

Right Hand Reverse:
When the hinges are on the right (visible) and the door swings toward you, the door is Right Hand Reverse (RHR).
