

HIGH PRESSURE DECORATIVE LAMINATE (HPDL) AND PALLADIUM EDGE AND WOOD ACCESSORY OPTIONS

VT offers the following edge and wood accessory options for our laminate and Palladium doors:

HPDL Doors:

Laminate Edges

- As the leading manufacturer of laminate wood doors in the industry, VT has supplied laminate edges for many decades covered by VT's lifetime warranty for workmanship and materials
- Laminate edges matching the face of the door is our standard edge offering which meets the impact and wear performance associated with HPDL

Wood Edges

- As a standard VT will paint edges to match when wood edges are ordered
- Painted edges provide the best color match and aesthetic with a finished edge option
- White maple edges are painted per laminate manufacturer suggested colors and paint formulas are kept on file for consistency across all orders
- Stained edges are available upon request

Unfinished Edges

- White Maple edges and accessories are available for field finishing
- White Maple is used to provide the most consistent color for finishing
- VT does not warranty the appearance of field finished edges

PVC Edges

- 3MM non-legged polyvinyl chloride (PVC) product
- Available in solid and woodgrain colors
- VT will apply PVC edge before face as a standard
 - Edge after face available on non-rated and 20-minute single applications

HPDL Wood Accessories

- Wood accessories will be painted to match as a standard when painted edges are ordered
- White Maple lite moulding will be provided unless otherwise specified
- Lite mouldings and louvers are available upon request
