NGP 423STC REPLACES 225SXSTC2 - VT1 (W) SEAL SYSTEM DISCONTINUED

NGP has updated their product offering for automatic door bottoms. With this update, the 225SxSTC2 has been replaced with the 423STC. The VT1 (W) seal system has been replaced with VT12 (4).

Updates:

- Re-engineered for consistent operation and seal
- The 423STC will fit the 225SxSTC2 mortise prep
- ¼"-3/8" drop (test condition) recommended for optimal STC performance
- End caps have an updated round top edge design
- External fins have been removed from the 423STC door bottom
 - Reduces potential for rubbing on finished floor
 - Eliminates binding with drop bar functionality
- Contact VT for equivalency documentation as needed
