WHEN YOU CHOOSE VT, YOU CHOOSE PERFORMANCE & BEAUTY.

Whether your project is healthcare, hospitality, education, or government, your doors need to withstand the test of time. Which, is exactly why VT doors provide durability for any application ranging from moderate impact to extreme, all allowing you to put more confidence into your VT door.

3MM PVC IMPACT
RESISTANT EDGE

HPDL SURFACE

MORE **CONFIDENCE,**
MORE **DURABILITY.**

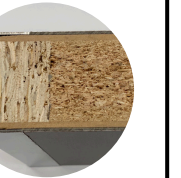

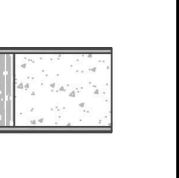

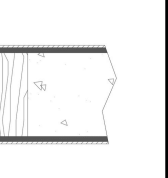

DURABLE EDGE *Solutions*

CONSTRUCTED TO LAST, BUILT TO PERFORM.

HOW DO THEY COMPARE?

HERITAGE COLLECTION				PALLADIUM COLLECTION	
High Pressure Decorative Laminate (HPDL) Doors				Palladium Impact Resistant Doors	
WOOD EDGE Stained or painted to match laminate face, easier to field repair	LAMINATE EDGE Matching edge, more durable than a veneered edge	PVC EDGE 3 mm high impact Polyvinyl Chloride product, available in solid color or wood grain to match faces	STAINLESS STEEL Available as mortised and installed at factory, high impact and easy replacement on damaged edges	FIXED EDGE Vinyl clad edge provides additional protection in high-impact environments	REMOVABLE EDGE Allows replacement of damaged door edges without replacing the entire door - rounded edge minimizes damage
