

# Project *Spotlight*

## THE FAYE: BOISE, ID

At the 2019 Canyon County Parade of Homes, in Boise, Idaho, the award-winning home, The 'Faye', had featured VT's CenterPointe Butcher Block countertops.

With the help of TUF Flooring, in Boise, Idaho, the home was designed with a black & white theme. Jeremy, from TUF Flooring, said they needed a product that would accent the white walls and make the kitchen "pop"! Jeremy and TUF Flooring had selected VT's CenterPointe Butcher Block Acacia species for several reasons, affordability, durability, sleek design, and product attractiveness.

The award-winning home used VT's CenterPointe Butcher Block Acacia

species with a natural finish for both the open shelves and the island in the kitchen.

To view The 'Faye', visit B&B Custom Homes and select the 2019 Canyon County Parade of Homes.
