

Product Update

March 18, 2019

#P100L

Revision 01

Applies to VT Dimensions

WILSONART LAMINATE

As of March 18, 2019, VT Dimensions will resume production of **Wilsonart's 4925 Calcutta Marble in the Ora edge**. Previously this edge and laminate combination was taken out of production.

Wilsonart 4830 Satin Stainless is only available in the Classic edge profile. (Single Roll, Double Roll, and Flat Panels only)

Wilsonart 5006 Cote d'Azur Noir is no longer offered. This specific dark laminate pattern is exceptionally prone to blistering when postformed and does not currently meet our manufacturing performance standards. We are actively working with Wilsonart to find a solution to this issue. In the interim, we suggest **Wilsonart 4926 Black Alicante** as an alternative laminate pattern.

Similar Laminate Alternative: **Wilsonart 4926**

The laminate manufacturer is aware of these issues and is working to resolve them as quickly as possible. We've also created a checkpoint in our ordering system that will flag any order pertaining to these circumstances and allow your customer service representative to reach out to you directly with a resolution.
