

Futura

Double-Radius Edge

Futura is a contemporary, seamless, double-radius edge that emulates the "slab" effect of solid stone surfaces.

Bold, yet refined, the Futura edge is an attractive option for VT Dimensions countertops. It's ideal for taking kitchen, bath, and workspace remodels to the next level, while still leaving room in the budget.

Futura Double-Radius Edge

Expect More from VT Dimensions

Bring together modern style, intriguing depth, and the seamless edge you want with the beautifully contoured look of VT Dimensions countertops.

Beyond the beauty, you'll have the assurance of knowing VT fabricates the whole countertop from top to bottom—not just the laminate surface—for consistent quality and service. And you get a 1-year warranty you can count on.

One source. Many beautiful looks. Only from VT.

Edge: Futura
Laminate: Sable Soapstone
Wilsonart® 4883-38
